

NATEBY PRIMARY SCHOOL

Physical Education, School Sport & Physical Activity Policy 2022

Physical Education Policy

1. Aims and objectives

1.1

It is our intention at Nateby Primary School that Physical Education, School Sport and Physical Activity (PEPSSA) is experienced regularly, in a safe and supportive environment, as it is a unique and vital contributor to a pupil's physical development and well-being. PEPSSA is the only subject whose primary focus is on the body; it uniquely addresses the physical development aim of the curriculum and makes a significant contribution to the spiritual, moral, social and cultural development of young people. Through Nateby's high quality physical education programme, our pupils will become physically literate and develop knowledge, skills and motivation necessary to equip them for a healthy lifestyle and lifelong participation in physical activity and sport.

Physical Education develops the children's knowledge, skills and understanding, so that they can perform with increasing competence and confidence in a range of physical activities. These include dance, games, gymnastics, swimming and water safety, athletics and outdoor adventure activities. Physical education promotes an understanding in children of their bodies in action. It involves thinking, selecting and applying skills and promotes positive attitudes towards a healthy lifestyle. Thus we enable them to make informed choices about physical activity throughout their lives.

1.2 The aims of PE are:

- to enable children to develop and explore physical skills with increasing control and co-ordination whilst providing appropriate challenge with acceptable risk;
- to encourage children to work and play with others in a range of group situations;
- to develop the way children perform skills and apply rules and conventions for different activities;
- to increase children's ability to use what they have learnt to improve the quality and control of their performance;

- to teach children to recognise and describe how their bodies feel during exercise; to be highly motivated and understand how to lead their own healthy life as well as influence those around them;
- To develop physical well-being through increased stamina, strength and suppleness, and recognise the positive impact on their emotional well-being and health from engaging in physical activity on a regular basis;
- to develop the children's enjoyment of physical activity through creativity and imagination;
- to develop an understanding in children of how to succeed in a range of physical activities and how to evaluate their own success;
- to build confidence and resilience to try hard and make progress across all activities.

2. Teaching and learning style

2.1 We use a variety of teaching and learning styles in PE lessons. Our principal aim is to develop the children's knowledge, skills and understanding and we do this through a mixture of whole-class teaching and individual/group activities. Teachers draw attention to good examples of individual performance as models for the other children and we encourage the children to evaluate their own work as well as the work of other children. Within lessons we give the children the opportunity both to collaborate and to compete with each other, and they have the opportunity to use a wide range of resources.

2.2 In all classes there are children of differing physical ability. Whilst recognising this fact, we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child.

3. PE curriculum planning

3.1 PE is a foundation subject in the National Curriculum. Our school uses the Lancashire Scheme of Work as the basis for its curriculum planning in PE. We have adapted the plans to meet the needs of the children in our classes. As required in Key Stage 1, the children learn dance, games, gymnastics and athletics. In Key Stage 2 the children learn dance, games and gymnastics, plus three other activities: swimming and water safety, athletics and outdoor and adventurous activities.

3.2 The curriculum planning in PE is carried out in three phases (long-term, medium-term and short-term). The long-term plan maps out the PE activities covered in each term during

the key stage. The PE subject leader works this out in conjunction with teaching colleagues in each year group.

3.3 Our medium-term plans, which we have adopted from the Lancashire Scheme, give details of each unit of work for each term. These plans define what we teach and ensure an appropriate balance and distribution of work across each term. The subject leader reviews these plans.

3.4 Class teachers adapt the short term plans for each PE lesson. These list the specific learning objectives for each lesson and give details of how the lessons are to be taught. The class teacher keeps these individual plans, and the class teacher and subject leader often discuss them on an informal basis.

3.5 We plan the PE activities so that they build upon the prior learning of the children. While there are opportunities for children of all abilities to develop their skills, knowledge and understanding in each activity area, there is planned progression built into the scheme of work, so that the children are increasingly challenged as they move up through the school.

4. The Foundation Stage (EYFS)

4.1 We encourage the physical development of our children in the reception class as an integral part of their work. We relate the physical development of the children to the objectives set out in the Early Learning Goals, which underpin the curriculum planning for children aged three to five years of age. We encourage the children to develop their fundamental movement skills and develop confidence and control of the way they move, and the way they handle tools and equipment. We give all children the opportunity to undertake activities that offer appropriate physical challenge, both indoors and outdoors, using a wide range of resources to support specific skills.

5. Contribution of PE to teaching in other curriculum areas

5.1 English

PE contributes to the teaching of English in our school by encouraging children to describe what they have done and to discuss how they might improve their performance.

5.2 Information and communication technology (ICT)

We use ICT to support PE teaching when appropriate. In dance and gymnastics children make video recordings of their performance, and use them to develop their movements and actions. Older children compare each other's performance from recordings and use these to improve the quality of their work.

5.3 Personal, social and health education (PSHE) and citizenship

PE contributes to the teaching of personal, social and health education and citizenship. Children learn about the benefits of exercise and healthy eating, and how to make informed choices about these things.

5.4 Spiritual, moral, social and cultural development

The teaching of PE offers opportunities to support the social development of our children through the way we expect them to work with each other in lessons. Groupings allow children to work together and give them the chance to discuss their ideas and performance. Their work in general enables them to develop a respect for other children's levels of ability, and encourages them to co-operate across a range of activities and experiences. Children learn to respect and work with each other, and develop a better understanding of themselves and of each other.

6. Teaching PE to children with special educational needs

6.1 At our school we teach PE to all children, whatever their ability. PE forms part of the school curriculum policy to provide a broad and balanced education to all children. Through our PE teaching we provide learning opportunities that enable all pupils to make progress. We do this by setting suitable learning challenges and responding to each child's different needs. Assessment against the National Curriculum allows us to consider each child's attainment and progress against expected levels.

6.2 When progress falls significantly outside the expected range, the child may have special educational needs. Our assessment process looks at a range of factors – classroom organisation, teaching materials, teaching style, differentiation – so that we can take some additional or different action to enable the child to learn more effectively. This ensures that our teaching is matched to the child's needs.

6.3 Intervention through individual 'Pathways to Learning' will often lead to the creation of an Individual Education Plan (IEP) for children with special educational needs. The IEP may include, as appropriate, specific targets relating to PE.

6.4 We enable pupils to have access to the full range of activities involved in learning PE. Where children are to participate in activities outside our school, for example, a sports event at another school, we use the school's risk assessment or we carry out a risk assessment prior to the activity, to ensure that the activity is safe and appropriate for all pupils.

7. Assessment and recording

7.1 Teachers assess children's work in PE by making assessments as they observe them working during lessons. They record the progress made by children against the learning objectives for their lessons. At the end of a unit of work the children complete a Core Task, teachers make a judgement as to whether the child has met, exceeded or is working towards the expectations of each individual unit. They record the information in the assessment files and use the information to plan the future work of each child. These records also enable the teacher to make an annual assessment of progress for each child, as part of the child's annual report to parents. The teacher passes this information on to the next teacher at the end of each year and the PE subject leader.

7.2 The PE subject leader keeps photographic and video evidence of children's work (in a portfolio), alongside the end of unit core task assessment sheets. This demonstrates what the expected level of achievement is in each area of activity in PE in each year of the school. Teachers meet regularly to review individual evidence of children's work against the national exemplification material produced by the QCA and the DfEE.

8. Resources

8.1 There is a wide range of resources to support the teaching of PE across the school. We keep most of our small equipment in the PE store, and this is accessible to children only under adult supervision. The hall contains a range of large apparatus, and we expect the children to help set up and put away this equipment as part of their work. By so doing, the children learn to handle equipment safely. The children use the school playground and the playing field for games and athletics activities and the local swimming pool for swimming lessons.

9. Health and safety

9.1 The general teaching requirement for health and safety applies in this subject. We encourage the children to consider their own safety and the safety of others at all times. We expect children to wear suitable PE kit to school on the days when they are having PE. The governing body expects the teachers to set a good example by wearing appropriate clothing when teaching PE. The policy of the governing body is that no jewellery is to be worn for any physical activity.

10. Monitoring and review

10.1 The monitoring of the standards of children's work and of the quality of teaching in PE is the responsibility of the PE subject leader. The work of the subject leader also involves supporting colleagues in the teaching of PE, being informed about current developments in the subject, and providing a strategic lead and direction for the subject in the school. The PE subject leader annually evaluates the strengths and weaknesses in the subject and indicates areas for further improvement where necessary.

11. Extra-curricular activities

11.1 The school provides a broad range of well attended PE-related activities including netball, football, multi skills, gymnastics, athletics, rounders, cricket and zumba for children at both the start and end of the school day. These encourage children to further develop their skills in a range of the activity areas. The school sends details of the current club activities to parents at the beginning of each term. The school also plays regular fixtures against other local schools and participates in area competitions. This introduces a competitive element to team games and allows the children to put into practice the skills that they have developed in their lessons. These opportunities foster a sense of team spirit and co-operation amongst our children. We aim to offer all children throughout their time at school an opportunity to represent the school.

12. Schools Sport Premium Funding

12.1 The PE and sport premium is designed to help primary schools improve the quality of the PE and sport activities they offer their pupils. We aim to develop, use and improve the sports provision in school by auditing and implementing new strategies and sports in

consultation with school staff, pupils and parents. All identified priorities are documented in the annual curriculum and sports premium funding audits. We will closely monitor the impact of the funding on PE and school sport.

This policy will be reviewed within three years and updated as and when necessary.

Cheryl Vardey

PE Subject Leader
